

Interfaith Learning Garden

The Interfaith Learning Garden provides us with the opportunity to teach families how to grow their own food—encouraging healthy and cost effective means for providing for food security at home. Learning opportunities in the garden are provided to the participants of the Interfaith Chinook Country Kitchen (cooking classes, Young Chefs, and Big Chef Little Chef). Garden produce is grown for use in cooking classes as well as for distribution to food bank clients. We also hope to have youth groups, schools and clubs will visit the garden as a learning experience.

Garden Sponsorships will assist with offsetting repair and maintenance costs of garden tools, equipment and capital components; program development and the provision of learning opportunities in the garden. **All Garden Sponsors will receive recognition on our website and in public service announcements to local media outlets.**

Bed Sponsors \$200 - \$500

By sponsoring a garden bed, your gift will help to off-set the costs of the beds themselves, which will grow vegetables, herbs and other healthy foods. Your company logo will also be displayed on the bed you sponsor. Multiple Bed Sponsorship Opportunities available:

Children's Garden Beds - \$200 each, 8 beds available for sponsorship.

Pre-school aged children who participate in The Interfaith Chinook Country Kitchen Programs are given the opportunity to dig, plant, and harvest foods produced in these beds.

Produce Garden Beds - \$500 each, 6 beds available for sponsorship. These beds grow the bulk of our vegetables for use in kitchen programs, and demonstrate vegetable varieties and growing methods that can produce high yields.

Accessible Garden Beds - \$500 each, 2 beds available for sponsorship.

These beds are located on the patio and are raised higher than our main produce beds to allow for accessibility for those with disabilities or mobility issues.

Circulation / Greenspace Sponsor \$1000

The Circulation / Greenspace provides an inviting open area in which groups can gather to be addressed by program leaders. This area also offers children of kitchen participants an outdoor play space. Your company logo will also be displayed on signage in the garden and included on print materials.

Forno Oven Sponsor \$1000

Kitchen participants will be provided with the opportunity to learn outdoor cooking skills and equipped with a new experience to help

inspire cooking with fresh ingredients from the garden. Forno ovens can be used for roasting, breads and pizzas, a favorite also among our Young Chefs. Your company logo will be displayed on signage in the garden and/or on the oven itself, and will be included on print materials.

Education/Learning Sponsor \$2000

The development of educational materials, signs and placards provide for self-guided and mentor led tours. Your company logo will be displayed on signage in the garden, and your contribution will be acknowledged in the educational materials that group leaders use to prepare for the garden visit and continue the learning in classrooms or group activities after the garden tour.

Compost & Biology Sponsor \$2000

Soil and biology need to be replenished each year. Composting will assist with managing waste and providing nutrients for our soil. Your company logo will be displayed on signage in the garden and acknowledged in the educational materials that group leaders use to prepare for the garden visit and continue the learning in classrooms or group activities after the garden tour.

Greenhouse Sponsor \$2500

Our Greenhouse provides a space for starting seedlings, tending to sensitive plants, and offers options in the types of fruits and vegetables we are able to produce. Your company logo will be displayed on signage in the garden and/or on the greenhouse itself, and noted in educational materials.
